 **HMS** Connecting Devices™

Flexy OPC UA - Client

Gateway For Interoperability

Flexy OPC UA - Server

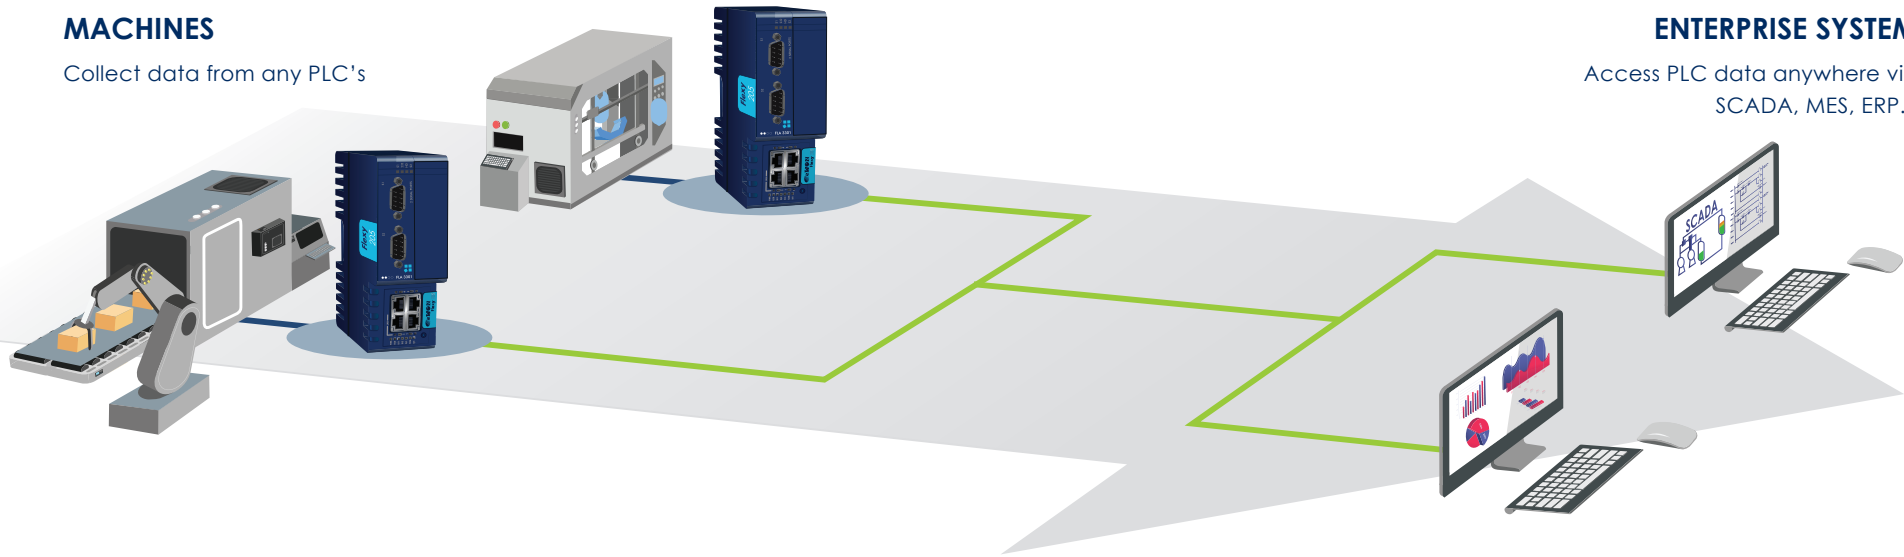

Secure Bridge between OT & IT

MACHINES

Collect data from any PLC's

ENTERPRISE SYSTEM

Access PLC data anywhere via
SCADA, MES, ERP...

TAKE ADVANTAGE OF THE FLEXIBLE AND LARGE PROTOCOL COMPATIBILITY OFFERED BY THE FLEXY.

Flexy now integrates an OPC UA Client alongside other major automation protocols to allow even more interoperability.

The highest security standard of OPC UA are fully implemented inside our Client and offers various level of authentication and encryption mechanisms to fit the security option offered by your PLC/HMI enabled with OPC UA Servers.

Fulfill IT security requirements by taking advantage of this easy to configure OPC UA Client.

SECURE COMMUNICATION CHANNEL BETWEEN YOUR MACHINES AND YOUR FACTORY ENTERPRISE SYSTEM (SCADA, MES, ERP).

The same Flexy, thanks to the embedded OPC UA Server, provides an easy and secure communication channel to move information from devices, even legacy PLC's, to IT applications.

The Flexy OPC UA Server offers security options for authentication and encryption which are easily manageable and fit your OPC UA Client security.

Leverage Machine Data to make better business decisions.

Flexy 205

The eWON Flexy 205 is an advanced internet data gateway that allows Machine Builders to monitor and collect vital KPIs for analysis and predictive maintenance. With data logging, alarming, built-in web interface, scripting and enhanced internet connectivity, the Flexy 205 is a modular Gateway ready to leverage your machine data. It also supports Remote Access.

Extensions cards

4G LTE
