

WAGO Fieldbus couplers for I/O system

The 750-363 EtherNet/IP fieldbus coupler has a fast boot-up time that enables systems to get online more quickly. Firmware updates can be accessed using the couplers' onboard Web-based management system. The coupler can be paired with WAGO's 500+ I/O modules to meet the needs of any I/O application. It supports a variety of protocols such as HTTP(S), BootP, DNS, SNMP and FTP(S). Other features include dual Ethernet ports, eliminating the need for switches or hubs; support of as many as 250 I/O modules; and add-on instructions to simplify the integration with various master controllers.

About WAGO

The WAGO Group is an international, standard-setting supplier of electrical interconnection, automation and interface electronic products. The family-run company is the world market leader in spring pressure connection technology. WAGO has continued to grow since being founded in 1951, with a current worldwide workforce of more than 8,000 – approximately 3,500 of whom are in Germany at its headquarters in Minden (North Rhine-Westphalia) and in Sondershausen (Thuringia). The company achieved sales of EUR 862 million in 2017.
