

Control Cabinet Outlet with Dual Connections

EFFICIENCY SQUARED: LESS ASSEMBLY TIME AND MORE FLEXIBILITY

Connect all conductor types up to 2.5 mm² (14 AWG) in plain sight via angled Push-in CAGE CLAMP®

Clear potential assignment via color-coded connection ports

Double loop-through connection

At a Glance:

- A double loop-through connection simplifies outlet circuit extension and minimizes inventory costs
- Clear potential assignment via color-coded connection ports
- Connect conductors in plain sight via angled connection ports with Push-in CAGE CLAMP®
- Easy voltage control via green status LED
- Flexible mounting option on DIN-rail and smooth surfaces via snap-in mounting foot and screw holes

Technical Data:

- 250 V ~
- 16 A
- 0.2 ... 2.5 mm² (24 ... 14 AWG)

Color	Item Number	Application
Gray	709-581	Standard circuits
Yellow	709-582	Permanently energized
Red	709-583	Uninterruptible power supply
